

Kursus Adobe Illustrator

Kursus Adobe Illustrator akan membawa anda melalui aplikasi grafik vektor standard, yang membolehkan anda membuat logo, ikon, lakaran, tipografi, dan ilustrasi kompleks untuk peranti cetak, web, interaktif, video, dan mudah alih. Ciri penjimatan masa membolehkan pengguna membuat karya dengan cepat dan cekap dengan standard profesional tertinggi.

Kami akan bermula dengan asas-asasnya, sehingga anda dapat merasa selesa mengenai antara muka, pilihan, dan menyiapkan dokumen baru. Kami juga akan memperkenalkan prinsip asas, seperti perbezaan antara grafik vektor dan grafik piksel. Seterusnya, saya akan mengajar anda semua yang anda perlukan untuk bekerja dengan objek di Illustrator. Ini adalah asas bagi semua grafik vektor, jadi kursus awal ini akan membantu anda memahami dan menggunakan alat yang lebih kompleks kemudian. Di bahagian menggambar kursus, kuasai mod menggambar, alat pena, alat kelengkungan, dan semua cara berbeza untuk melukis dan memanipulasi jalan. Ketahui mengenai pelbagai jenis berus dan bagaimana memanfaatkan ciri unik mereka. Anda juga akan belajar bagaimana membuat berus tersuai anda sendiri.
